

7th Annual Conference American Council for Medicinally Active Plants (ACMAP)

June 29 – July 1, 2016 (*)
Lima, Peru

(*) The ACPMAP conference (June 29 - July 1, 2016) will be held jointly with "IX Encuentro REDBIO 2016-PERU" (Ninth Latin American and Caribbean Agricultural and Forestry Biotechnology Meeting; June 27 - July 1, 2016). ACPMAP registrants can attend the REDBIO 2016-PERU meeting (**).

Speakers from globally recognized institutions leading research on medicinal plants. Poster sessions. Student presentation competitions. Field trips. Optional post-conference technical visits and tours in Cuzco and Machu Picchu.
Topics:

- Plant biotechnology and human health
- Identification of bioactive compounds from Amazonian and Andean plants
- Plant bioactives for infectious diseases
- Micropropagation, conservation and sustainable production of medicinal plants
- Plant bioactives for cancer prevention and therapy
- From traditional knowledge to nutraceutical and pharmaceutical products
- Plant constituents for obesity and related disorders
- Clinical studies of plant extracts and bioactives
- Functional foods: Strategies to increase the levels of bioactives in plants and plant products
- Molecular approaches to elucidate the biosynthesis of bioactive natural products in plants
- Intellectual property and commercialization of plant products for human health

For further information, abstract submission and registration visit www.acmap.org or contact ACPMAP Conference Program Chair (Dr. Fabricio Medina-Bolivar, fmadinabolivar@astate.edu)
